FIELD NOTES & OBSERVATIONS (1 YEAR OR HARD USE)

Carried daily for approximately three years as both an EDC and backup hiking light. Used in all conditions and normal environments with no functional failures. Finish shows minor cosmetic wear, but output, switch operation, and charging remain reliable. Clip continues to work well.

NOTES:

Minor finish wear on edges and pocket clip.

BOTTOM LINE SUMMARY

Three years of daily carry proved the MicroStream USB isn't perfect—but it's close. Reliable, compact, rechargeable, and field-tested, it has earned a permanent place in my pocket and a solid 9/10 recommendation.
